TOWN COUNCIL

The Town Council met on Monday evening last.

The minutes of last meeting were read and confirmed.

The communication from the solicitor re fire walls and an account from Wainright Bros., was referred to the Fire Water and Light Committee.

A By-Law was introduced to provide for a bye election in Ward No. 4, to fill the vacancy caused by the resignation of R. H. Mair, and appointing Geo. W. Baker Returning Officer. The By-Law was read three times and passed.

The Finance Committee reported recommending that the accounts of the PRINCE ALBERT TIMES for \$14, and W. R. Gunn for \$37.48 be paid. Adopted.

MacLeod—Macdonald—That Mayer Donaldson, Coun. Baker and the mover be a committee to take into consideration the renewal of the ferry license, or such other steps as may be in the interests of the town and report to the Council.

The Council then adjourned.

Messrs. O. Posson and Geo. Heigh,

who came in a short time ago, have rented the farm and stock of Mr. Northcote on the South Branch, fifteen miles from town.

A MARVEL OF INGENUITY.

The wonderful Edison Phonograph, aptly termed the "wonder of the world," is exhibited this week in Prince Albert by Mr. F. H. Wall, an expert electrician, who is stopping at the Queen's. Music by celebrated bands and orchestras, songs both comic and sentimental, by professional singers; comic recitations by noted comedians, issue forth from the wonderful machine to the delight of all who have heard it. The records can be heard as distinctly as if the performers were upon the stage before you. A large number of citizens have called at the Queen's to inspect the celebrated instrument, and all speak in the highest terms of the rich musical treat they enjoyed. Mr. Wall exhibited his noted instrument on Monday and Tuesday evenings at the Barracks to large audiences. Every person both young and old, should hear the delightful music of Mr. Wall's phonograph.

"The man that hath no music in his soul is fit for treason, stratagems, and spoils; His mind is dark as night; let no such man be trusted."

A MEAN MAN, A VERY MEAN MAN.

Introductory—I took charge of four congregations at a salary of \$300. I was compelled to purchase a horse for \$125 and paid a \$100 for rent, thus leaving \$75, with such perquisites as marriages and donations might bring, to support myself, wife and child.

Occasion.—I had served probably two months, when an elder of one of the congregations came to borrow the young and high-spirited horse. Very reluctantly the horse was loaned to him on condition of being carefully handled. As afterward ascertained, the elder re-loaned the animal to a son of his, who took him to a race-course and gave him a three-mile heat. The horse, over-heated, took cold and a sudden inflammation of the lungs set in, from which he died in the elder's stable.

Meanness.—The elder never even apologized, much less offered a remuneration, and seemed to think that Providence had thus ordered it, to keep his minister more humble and dependent.

Climax of Meanness.—The elder's subscription for my support was \$10, and when he was asked by the deacons to pay it, he actually handed in a bill of \$10 for doctoring the minister's horse, that died, a borrowed horse, in his stable. Against all remonstrances he persisted, and thus paid his subscription. He was, however, so magnanimous as not to charge anything for burying the horse.

Canada would be hopelessly beaten in that competition. We have no such elder. We make no entry. Give that fellow a wide berth.

Ottawa, April 9.—The Canada Gazette today shows the revenue of the Dominion for nine months ended 31st March last to be \$26,732,946, and expenditure \$23,383,469; surplus, \$3,349,487, which shows that after paying interest due in June, there will be a surplus notwithstanding the abolition of the sugar duties. The net debt is \$236,270,162, or a million and a half less than on the 30th June last.

A large deputation from Edmonton waited on Hon. Mr. Oulmet yesterday, asking for new public buildings and a bridge over the Saskatchewan.

Montreal, April 9.—Capt. Aird, formerly of the Allan steamer Sarmatian, was accidentally drowned yesterday at Cowansville. Capt. Aird was a popular navigator and well known throughout the Dominion.

Quebec, April 9.—An attempt is to be made to reduce by \$10,000 a year the expense of the parliament house here.

London, April 9.—Dr. G. P. Jones, one of the best physicians in London, died suddenly last Wednesday.

Cobourg, April 9.—John Hargraft, ex-member for West Northumberland leaves shortly for Nevada where he will reside in future.

Angus McKenzie, recently appointed bursar of the insane asylum at Mimico, and formerly a prominent resident of Middlesex county, is dead.

WEDNESDAY, APRIL 13, 1892.

A PATENT DELUSION.

The export trade of Canada hav-
ing grown in the last three years
from \$89,000,000 in 1889 to \$96,000,000 in 1890, and to \$98,000,000 in 1891—with the prospect of
its touching the highest point this
year—the Opposition at Ottawa are
hard driven for an argument to show
that the foreign commerce of the
country is in an unsatisfactory shape.
In this emergency their speakers in
Parliament are repeating, with mis-
placed fidelity in the gullibility of
the public, that the trade now does
not compare with the figures of 1873.
Of all the impudent fallacies of the
party perhaps this is one of the most
farfetched. On what ground can a fair
comparison be instituted between
the results of 1891 and 1873 when
the object is to arraign the Govern-
ment of to-day for its alleged com-
mercial shortcomings? This Govern-
ment has not been in office contin-
uously since 1873. The Conser-
vative states who took over the ad-
ministration of the country in 1878
did so after five years of so-called
Reform rule. To hold them respon-
sible for the enormous drop during
the Grit regime is the height of pol-
itical depravity and accounts in some
measure for the refusal of the peo-
ple to believe Grit statistics.—*Em-
pire.*

President Harrison is getting criti-
cism these days more frank than
friendly. He is accused of endan-
gering the peace of the country for
the sake of making party capital;
and it is even insinuated that he has
not been wholly insensible to the
blandishments of the Alaska seal
company while dealing with inter-
national complications. Last of all,
he is charged with the suppression
of public documents bearing upon
the seal controversy, and with pre-
tending that the diminution in the
number of seals was due to "Can-
adian poaching," when in fact he
knew that it was mainly due to over-
slaughter on the islands. In 1874,
Prof. Henry W. Elliott made a study

of seal life at the Pribyloy islands,
and reported that 100,000 male seals
might be killed annually without
danger. In 1890 the same gentle-
man made another visit to the is-
lands, and was amazed to find the
seals reduced to one-tenth of their
former numbers. He reported that
the reduction was caused by "over
driving" on the island, begun in
1879, dropped till 1882 and renewed
again with increased energy from
year to year; secondly, by pelagic
sealing, begun in 1886. He esti-
mated that the shrinkage due to
over-killing on the islands was nine-
fold greater than that due to the
taking of seals in the open sea. Pres-
ident Harrison has had this report
in his possession for more than a
year. Yet he has persistently affirm-
ed that the decrease in the number
of seals was due wholly, or almost
wholly, to the pelagic sealing. It
is to be expected that a statesman
will do all he can to guard the in-
terests of his country. But there
are people, even in the United States
who think he is not called upon, in
doing so, to make statements which
he knows to be false.

The *Empire* says: A scientific
study of the use of tobacco need not
necessarily be regarded as a waste
of time by the moralist. The *Re-
vue des Deux Mondes* in an article
contributed by Jules Rochard, of
the French Academy of Medicine,
has gone into this phase of the sub-
ject. It appears that with people
live a sedentary life the tobacco
habit means loss of appetite, and
in inveterate cases dyspepsia. To
women and children tobacco and
tobacco smoke are injurious and
offensive. Cigarette smoking is the
very abomination of desolation. Yet
we are told that if the cigarette
smoker is especially subject to acci-
dents of the heart, those who use
the pipe have to fear epithelioma,
otherwise called the cancer of the
tongue. * * * The cancer of
smokers shows itself generally at the
point where the stem of the heated
pipe is carried upon the lower lip.
These two forms of a horrible dis-
ease are without doubt the most
serious that smokers can meet with
Statistics are given showing that 155
deaths per year occur in Paris from
cancer of the mouth, while the num-
ber of smokers in Paris is 355,000.
By the way, there is no desire on
our part in quoting Dr. Rochard to
encourage Mr. Mowat or his blue
laws, but rather to inform parents
of the truths which they have to
consider when the tobacco problem
comes up for consideration in the
household. We take our stand al-
ways for the birch rod and the ma-
ternal slipper.

That was an excellent piece of ad-
vice Sir John Thompson gave Dr.
Landerkin the other day. What do
we see around us? We see anarch-
ism in France, lynch law in the United
States, famine in Russia, Aus-
tria and India, labor troubles in
England and Australia, war clouds
over Germany and Turkey, civil
war playing havoc in the republics
of Latin America; in short, spring
eruptions breaking out almost every-
where, except under the strong and
healthy constitution of this Canada
of ours. Why don't the pessimists
read the papers?

The *New York Sun* says the new
order of the United States treasury
department, prohibiting the employ-
ment of Canadians on American
vessels, is "not in any way unfriend-
ly to Canada." Of course not. It
is just like the McKinley tariff. But
it doesn't matter. It will do Can-

ada good. That and similar things
will have the effect of making Can-
ada more and more independent,
and will, after a while, teach the
Canadian idiots who think that this
country can't get along without the
United States that they are idiots.

After a run of exactly eleven days
and eighteen hours from Yokohama
the Empress of India recently steam-
ed into the harbor of Victoria, B.C.
She brought 42 saloon passengers
and 362 others, while her freight
cargo consisted of 2,000 tons, most
ly consigned to Eastern States. Ten
carloads of silk was contained in the
manifest. The run was a very plea-
sant one and the weather during the
greater part of the trip almost per-
fect.

Anarchism has labored and
brought forth a Ravachol. Rava-
chol is one of the worst criminals
France could produce. He was
born and educated with criminals.
He has followed murder and rob-
bery as his natural and inherited
profession. There are many other
social and political movements get-
ting an airing in this planet of ours
which, if probed to the bottom,
could display in their various de-
grees leaders and motives of no
higher order.

Fashionable pulpit oratory in New
York has recently made a large in-
vestment in the influence of the
press as a popular subject for criti-
cism, and yet if the gentlemen who
indulge in this sort of thing had sent
half as many into heaven as the press
has sent scoundrels like "Prince Mi-
chael" into the penitentiaries their
lives would not be altogether wasted.

Rev. Canon Flett, who has been attending a meeting of the School Inspectors of the N. W. T., at Regina, came in on Tuesday evening's train. The Canon also visited Winnipeg.

It is possible that an arrangement will be made with Mr. Wall the electrician, in order to have him give a lecture on the Phonograph, and exhibit the powerful recorder to the pupils of the High and Public Schools of Prince Albert.

Mr. Daniel Shannon has sold to Henry Kelly of Duck Lake, his stallion "Phil Sheridan." The Duck Lake people can congratulate themselves on getting such a fine animal, and one that has such good offspring.

News has just been received from Fort Qu'Appelle announcing the death of Mrs. McBeath, wife of the late Adam McBeath E. Q., of the H. B. Co., at that place, and mother of Mrs. Thomas McKay. Mrs. McBeath was about 72 years of age, and leaves a family of eight children to mourn her loss.

M. C. O'Connor, with his usual enterprise, has lately added to his establishment a magnificent furnished and thoroughly equipped bath room, containing all latest modern improvements and innovations. An attachment for condensing water before entering the tub renders the water thoroughly soft and superior to rain water. Fee to local patrons, twenty-five cents. Next door to Betts & Gwynne.

At a largely attended meeting of Court Saskatchewan, Independent Order of Foresters, held in Saskatchewan Hall on Friday evening last, a resolution was passed sympathizing with Bro. R. G. Congdon, on account of the death of his eldest son, Ernest Grant Congdon. The recording secretary was instructed to notify Mr. Congdon, of the resolution of the court.

Waghorn's Guide for April has come to hand, as usual replete with a fund of information on travel and business matters. Besides the many changes and attractions that have to be carefully chronicled in the business tables of the Provinces, the special features of the edition are, the new time card on the Northern Pacific and branches, also of the Galt Road; the new post offices opened with their location and stage service connections; the sailings of the Atlantic steamships and the new summer rates of passage.

Posters are out announcing the date of the Glee Club entertainment, which takes place on Monday and Tuesday evenings next, the 18th and 19th inst. An excellent programme, both literary and musical, has been prepared, in which all the local talent of the town will take part. This will be followed by Gilbert and Sullivan's Opera "Trial by Jury," and judging from the time spent in preparation and the known ability of those taking part, our citizens are assured of a pleasant and profitable time during these performances.

We have received from the publishers the 1st No. of Vol. 8, of *The Canadian Bee Journal*, edited by D. A. Jones, issued semi-monthly at Beeton, Ont. The *Journal* is neatly gotten up, and illustrated with a splendid frontispiece, with portraits of Allan Pringle, Selby; Rev. W. F. Clarke, Guelph; R. McKnight, Owen Sound; S. Corniel, Lindsay. The reading matter is of vital interest to all bee-keepers, and especially to the farmer "whose bees don't pay." To those desirous of obtaining practical information in regard to bees, no better investment can be made, we think, than a dollar spent in a subscription to the *Canadian Bee Journal*. Send address for sample copy.

"German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled

with colds, and he often coughs enough to make him sick at Consumption his stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."
